DECCAN EDUCATION SOCIETY:

Founders of DES

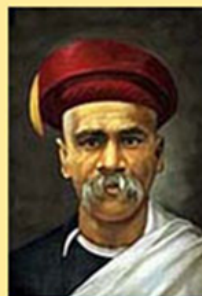

Bal Gangadhar Tilak

Mahadeo Ballal Namjoshi

Vishnushastri Chiplunkar

Gopal Ganesh Agarkar

Vamanrao Apte

In the year 1880, the late Shri V. K. Chiplunkar with Lokmanya Tilak and M. B. Namjoshi started 'New English School' in Pune with the objective of 'cheapening and facilitating education'. In course of time Shri V. S. Apte, (M. A.), Shri. G. G. Agarkar, (M. A.), Shri V. B. Kelkar, (B. A.), Shri M. S. Gole, (M. A.), and Shri. N. K. Dharap, (B. A.) joined them.

This was a revolutionary step because Government Institutions and Christian missionaries were the only agencies involved in educating the masses and the education provided failed to generate leadership for industrial regeneration of a self-governing nation. Private enterprises in education were discouraged. With the idea of providing education to rouse the intellect, drooping will and slumbering conscience of the fallen countrymen, Deccan Education Society came into existence.

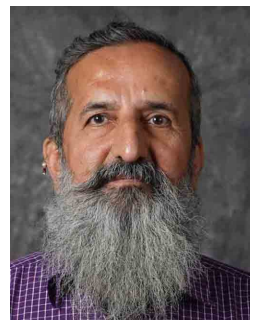

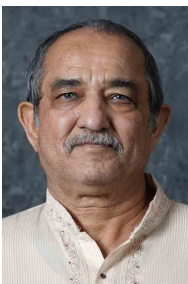

To incorporate a regular constitution on a new and more extended basis, these pioneers of innovative education called a meeting of the sympathisers with private education on the 24th

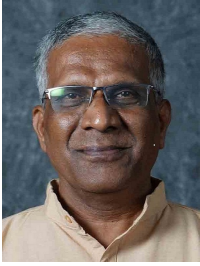

October, 1884, and at that meeting the Deccan Education Society was formed and the New English School, (Tilak Road, Pune), placed under its management. On the 13th August 1885 the Society was registered under Societies Registration Act XXI of 1860. Since that time several institutions have been created and have been placed under the management of the Society.

DIRECTOR'S DESK

My focus in CIMDR will be to help all my publics , to develop their personality. My philosophy is Peter Drukar's Statement "Innovate or Die".

Business and industry being integral part of the society cannot remain untouched of this disruption. As a B-school we are closely monitoring the change that the industry is passing through. International trade pattern is shifting drastically. Business models that were effective before Covid may not be relevant in the era after Covid. If business models are redefined after this pandemic, then the skills and knowledge required to run these models would in turn show a change as well.

Every problem has an opportunity hidden in it and today's situation is no exception. Dear Students I am very positive about avenues that will open up for those who are fast to adapt and adjust to these changes. Computing skills, Analytical Skills, communication skills, e-communication skills, digital marketing skills, IOT, Artificial intelligence , machine learning , business analytics , skills required to work from home, investment management skills, are some of the skills that will be in high demand in current scenario.

The CIMDR has pragmatic approach in adapting to micro and macro environmental aspects. We have proactively redesigned our student development model that will address requirements of new business models and new Economy. Even during lockdown the CIMDR was fast to cope up with online training, teaching and evaluation. Graduates of this institute are not only equipped with professional skills but also connected with social issue making them a humane manager. Friends as a head of this institute, I assure you

that management, staff and students of this institute will always abide themselves to the values and philosophy laid down by great founders and pioneers of Deccan Education Society. DIRECTOR'S DESK.
